Explore OneSearch

Find more materials faster! OneSearch is the Egan Library's new discovery tool that enables you to explore and access a variety of library resources through one simple search box! Use OneSearch to find library materials across the participating libraries' collections, including books, DVDs, articles from magazines and journals, and more.

With OneSearch, you can:

⇒ search once for everything (books, ebooks, journals, full-text articles, and more)
⇒ easily refine or expand your searches

See selected features of OneSearch below, and give it a try! You can access it via the Egan Library homepage.

Access full-text immediately, link to check for full-text in other library databases, or see information from the Library’s catalog.

Extend your search, if needed, using options on the right-hand side.

For more information see our OneSearch-Highlights research guide (http://uas.alaska.libguides.com/onesearch), or ask a librarian!
